

Christophe Chauderac

ASSOCIATE

SINCE 2018

Coming from a rural environment, close to nature, I have always been interested in this domain. Besides this personal choice, I chose a scientific baccalaureate and headed towards studies in Pharmacy.

After 6 years at the University of Pharmacy in Montpellier, I received my diploma as a Doctor of Pharmacy.

I practice my pharmacy profession and develop my skills in Phytotherapy and Pharmacology.

Then, recently came long an encounter with Céline Escand who proposed a collaboration to develop the Baume Intégral.

Her beauty product is convincing, multifunctional, for all skin types, hydrating, anti-aging, make-up removing... it's currently in the process of Ecocert certification. Simple and effective, validated by a demanding clientele.
